Summary

AI Full Stack Developer and Backend Engineer with experience building **scalable SaaS applications**, **RESTful APIs**, **AI-powered platforms**, and **intelligent automation systems**. Proficient in **React.js**, **Next.js**, **TypeScript**, **Node.js**, **NestJS**, and **Python (FastAPI)** across the full stack. Experienced in **AI & LLM integrations** including **RAG Pipelines**, **AI Agents**, **Semantic Search**, **LangChain**, **Prompt Engineering**, and **Vector Databases**.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, C++, SQL

Frontend Development: React.js, Next.js, Angular.js, Redux, Streamlit, Tailwind CSS, Bootstrap

Backend Development: Node.js, NestJS, Express.js, FastAPI (Python), RESTful APIs, GraphQL, tRPC, WebSockets, CRUD Operations, Backend Services, MERN Stack, System Integrations

AI & LLM: LLM APIs, Groq LLaMA 3.3 70B, OpenAI API, Azure OpenAI, AI Agents, RAG Pipelines, RAG Architectures, Prompt Engineering, Fine-Tuning (LoRA, QLoRA), Vector Databases, Pinecone, ChromaDB, FAISS, Semantic Search, Embeddings, Vector Search, MCP Ecosystem, Conversational AI, LangChain, LangGraph, CrewAI, AutoGen, Hugging Face Transformers, Elasticsearch, OpenSearch, AI Tooling (Cursor, Copilot, ChatGPT)

Machine Learning & Data Science: MLOps, PyTorch, TensorFlow, scikit-learn, Hugging Face Datasets, LSTM, ARIMA, Facebook Prophet, Random Forest, SVM, K-Means Clustering, PCA, pandas, numpy, matplotlib, mplfinance

NLP & Sentiment Analysis: VADER, TextBlob, NLTK, News Sentiment Analysis

Workflow Automation: n8n (Custom Nodes, Community Nodes, Workflow Design, Scheduled Automation), AI Workflow Automation, Workflow Orchestration, API Integration, Process Automation, Event-Driven Architecture

Databases: PostgreSQL, MongoDB, Redis, MySQL, OpenSearch

Cloud & DevOps: AWS (Certified Solutions Architect), Google Cloud Platform (Cloud Run, Functions), Docker, CI/CD Pipelines, GitHub Actions, Cloud Deployment, Cloud-Native Development, Infrastructure Design

Architecture & Systems: Microservices, Scalable System Design, Fault-Tolerant Design, SaaS Application Development, Enterprise Application Development

Security & Standards: JWT Authentication, OAuth2, API Security, GDPR Compliance, Secure Coding Practices

Testing & Debugging: API Testing, Debugging, Test Case Validation, Automation Testing (Selenium)

Developer Tools: Git, GitHub, Postman, Swagger, VS Code

Work Experience

Nexprism

April 2025 – January 2026

Full Stack Developer

Bhopal, Madhya Pradesh

- Developed scalable **RESTful backend services** using **Node.js** and **NestJS**, integrating **Redis caching**, **JWT/OAuth2 authentication**, and **Dockerized CI/CD pipelines** for secure, high-performance cloud deployments.
- Built a **custom n8n community integration node** for **Abacus ERP REST APIs** and designed **n8n automation workflows** for third-party integrations, eliminating manual data entry and reducing operational effort.

Projects

Stock Market Analysis Platform | *Python, FastAPI, LLaMA 3.3, TensorFlow, LangChain, n8n* March 2026

- Built **AI-powered financial platform** covering **global tickers** using **Groq LLaMA 3.3 70B**, **LangChain**, **LangGraph**, **MCP Ecosystem**, **RAG Pipelines**, and **Semantic Search** for agentic analysis.
- Implemented **16 ML models** (LSTM, ARIMA, Random Forest, SVM), **82 technical indicators**, **VADER sentiment analysis**, **n8n automation workflows**, and **FastAPI backend** with **18 REST endpoints** covering **CAPM**, **Monte Carlo**, and **VaR** models.

n8n Abacus ERP Integration Node | *TypeScript, Node.js, n8n, REST APIs, OAuth2*

March 2026

- Developed and published a **custom n8n community node** in **TypeScript** integrating **Abacus ERP REST APIs** with **OAuth2 authentication**, **pagination handling**, and robust **error management** for scale automation.
- Enabled **no-code automated ERP data pipelines** for customers, invoices, and orders using **Node.js** and **n8n** — empowering non-technical teams and reducing **time-to-workflow** for new business processes.

Education

Vellore Institute of Technology

September 2022 – February 2026

Bachelor of Technology in Computer Science and Engineering | *CGPA: 8.22 / 10*

- Relevant Coursework:** Software Development Life Cycle, Agile Development, Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, System Design, Cloud Computing

Certification & Achievement

- AWS Certified Solutions Architect – Associate:** Certified in designing scalable, fault-tolerant cloud architectures.
